this text is concerned with the organization ideas and problems of palliative care in the european context as a result of a biomed project various organizations concepts and problematic issues of palliative care have been studied and described

this paper describes approaches to the measurement and explanation of income related inequality and inequity in health care financing health care utilization and health and considers the applicability and the feasibility of these methods in low income countries results from a comparative study of 14 asian countries are used to illustrate the main issues the structure of health finance in low income countries in particular the heavy reliance on out of pocket payments means that the equity issues in finance are quite different from those of concern in high income countries primary concern is not with the distribution of contributions to pre payment mechanisms but with the deterrent effect of payments on utilization and the distribution of uninsured payment risks measurement of inequity in utilization of health care in low income countries is constrained by the lack of reliable measures of health that can be used to standardize abstract

this provocative and timely book examines the current state of primary care practice and outlines a new vision for the delivery of primary care services primarily in the uk but also internationally encouraging a social compact between citizens governments and the providers of care the book describes how this will necessitate a redesign of the welfare sector to ensure it is fit for purpose in the digital world it explores the respective roles of the inverse care law and the rule of halves systems theory and learning organisations mutuality and active citizenship and how these can be applied to improve service delivery key features offers an alternative approach to thinking and a challenge to leaders within primary care and to those with administrative responsibility for the sector reflects the multiple challenges facing primary care including the rise in frail elderly patients increasing multi morbidities the impact of changing demography with migration

and much more sets these challenges in a context of increasing workforce pressures including changing attitudes to professionalism burnout and recruitment difficulties outlines a road map for improvement responding to current challenges around social care as well as digital e health aimed at and written for all those committed to improving the future of the primary care sector in the uk and internationally this important book will be of interest to students clinicians managers commissioners policy makers and service users
